REACT & Bootstrap Forms Research

- **YouTube Series** -
  https://www.youtube.com/playlist?list=PLEsfXFp6DpzQbwYDx1zgcKJ4tzyWFaESK
  - Videos #21,22,23,24 – specifically for form and different associated elements.

- **React forms** - https://reactjs.org/docs/forms.html

- **Bootstrap Components Forms** -
  https://getbootstrap.com/docs/4.0/components/forms/

- States and input form elements.
- Render functions will contain all components that will be visible to the users on the front end.
- Plan of action – Switch to react app by creating classes for repeated components like navbar, etc
